

SOLAR ENERGY PLANS

POWER PURCHASE AGREEMENTS (PPA)

POWER PURCHASE AGREEMENTS (PPA)

WHAT IS A SOLAR ENERGY PLAN?

A Solar Energy plan is otherwise known as a Power Purchase Agreement (PPA). The key difference between a solar energy plan, a solar lease or any other option is that with a solar energy plan you are buying solar energy, not solar equipment.

VS

THE BENEFITS OF A SOLAR ENERGY PLAN

NO UPFRONT COSTS. With a solar energy plan, you are not required to make any upfront investment.

LOWER \$ PER kWh. Reduce your electricity costs immediately & protect your business against future power price rises.

NO MAINTENANCE. With a PPA Agreement, your solar system is fully maintained to ensure that you receive hassle free solar energy for years to come.

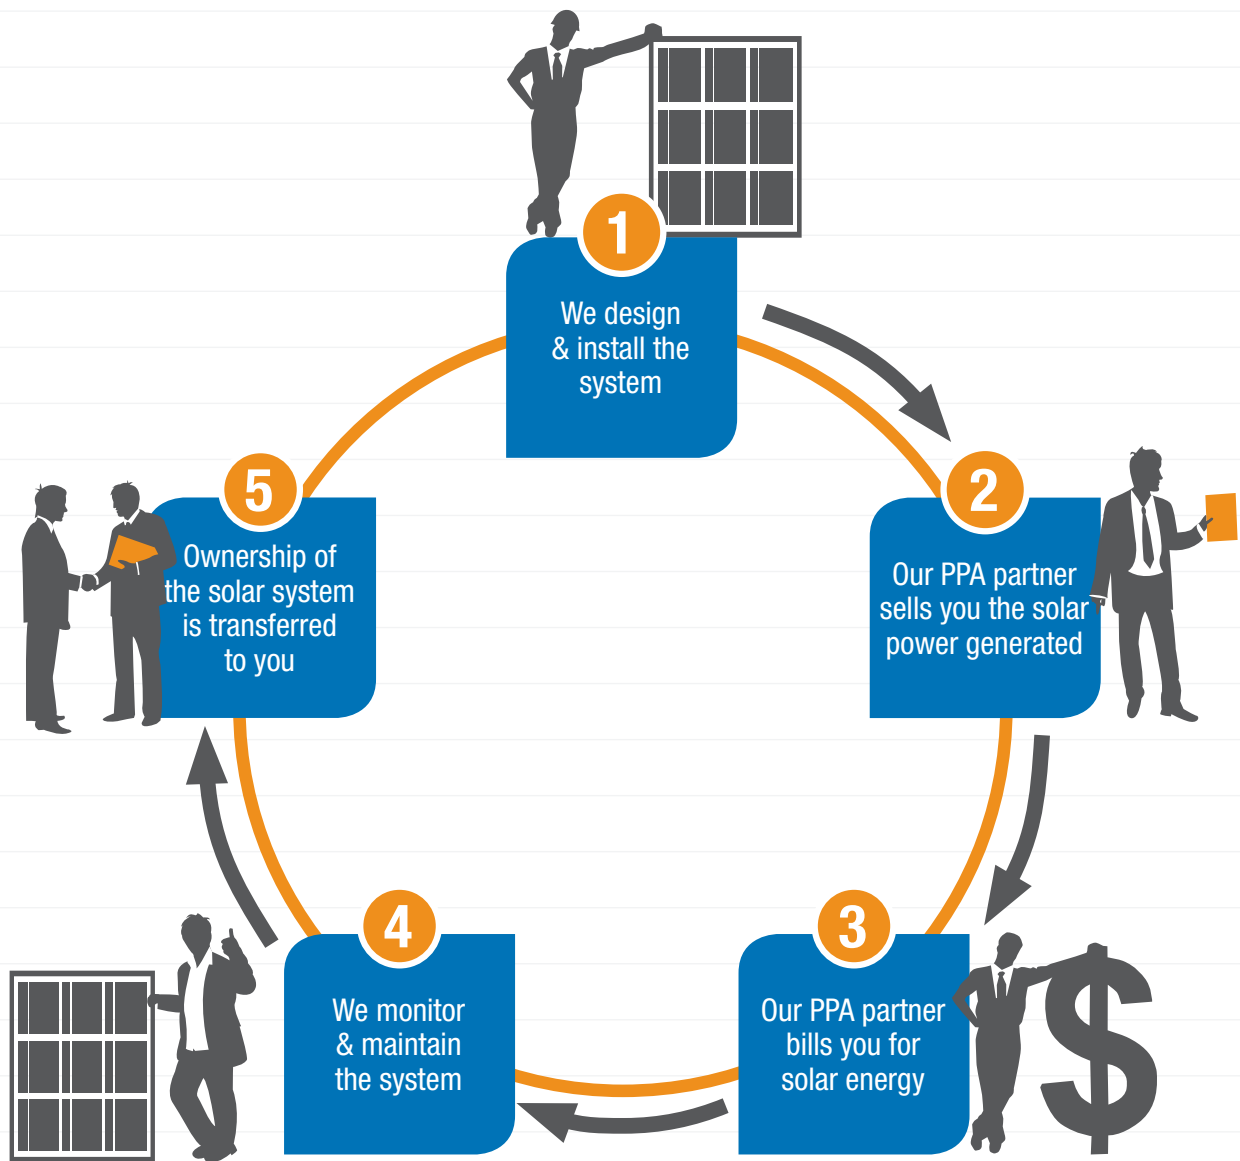

NO RISK. If we don't produce the electricity you don't pay for it. There is absolutely no risk to you.

YOU CAN OWN IT. At the end of the plan you will own the system & save even more. Alternatively you can buy out the plan early if you choose.

HOW DOES IT WORK?

WHY BEACON ENERGY SOLUTIONS?

With several megawatts of experience under our belts, Beacon Energy Solutions are commercial energy efficiency specialists and well equipped to handle projects of any size. We can also assist your business with other energy efficiency measures including LED lighting upgrades, energy audits and monitoring.
